EXPERIENCE

Zipari, Brooklyn, NY + Columbus, OH — Technical Architect

DECEMBER 2019 - NOVEMBER 2021

Architect application structure to ensure scalability of front end codebase and user experience design. Deliver set of tools to allow for the configuration, theming, and user segmentation of multiple web products, for use by multiple clients. Lead migration from Angular to React and from REST to GraphQL.

Zipari, Brooklyn, NY — *Technical Director*

JANUARY 2019 - NOVEMBER 2019

Organize cross-functional teams for each product to enable more efficient delivery schedules. Introduce and implement a front end state management system. Establish a "core" team to build reusable components and internal configuration tools.

Zipari, Brooklyn, NY — *UX Engineering Manager*

MARCH 2018 - DECEMBER 2018

Engineer theming system to deliver configurable and customizable user interfaces for multiple customers with multiple products. Establish code standards for HTML and SCSS.

Kargo, New York, NY — *Senior UX Engineer*

SEPTEMBER 2015 - FEBRUARY 2018

Operate at the intersection of product, design, and engineering to facilitate rapid, iterative assembly of product features. Develop pattern libraries and implement a cross-product design system.

Freelance, New York, NY — *User Experience Developer*

OCTOBER 2013 - SEPTEMBER 2015

Iterate designs based on product owner feedback. Consume RESTful APIs and display data in mobile-first interfaces.

EDUCATION

The Ohio State University, Columbus, OH — *Economics*

JUNE 2009 - JANUARY 2013

Critically analyze how individuals, firms, governments, and international agencies allocate finite resources in the face of limitless human desire.
